WORKING WEEK: 2

Date	Work Summary/Weekly Activities	Duration	Remarks
7/8/2017 – 11 / 8/2017	The job of sending duty and tax email notification is continuous as it is our job . The average of everyday email is about 400 emails for morning and noon session . In our second week , we're learning new things which is scanning the paperwork . Scanning paperwork is required for paperwork movement . As from week 1 , we were assigned to be in Customer Service (Custom) Department . The paperwork movement is transferring paperwork from Customer Service (Custom) Department to Clearance Department before parcels is ready to shipped . Scanning paperwork is for tracking purpose . As for second week, we're busy handling duty and tax email notification and scanning paperwork . The second week is tougher because one person from this task is back to HQ . Thus , my job is double up . Job Summary • Duty and Tax Notification • Scanning paperwork	<i>Duty & Tax Notification :</i> 9am to 12pm & 3pm -5.30pm <i>Scanning paperwork :</i> In between of free times about 1 – 2 hours

WORKING WEEK: 3			
Date	Work Summary/Weekly Activities	Duration	Remarks
14/8/2017 – 18 /8/2017	As previous weeks , my job is continuous as sender of duty and tax notifications . But in this week , its getting tougher as my partner is taking absent for one day . Its my chance to taste the stress and hectic . The week also stressful for me because the company is changing their systems and make me more confuse . As for this week , my job is add up to update customer profile . The customer profile is important because every job and clearance need to refer with customer profile . When FedEx going to merge with TNT , the TNT's clients will become FedEx's clients and its where the task begin . The updating profile is needed to match between new and old account number .When the data is matched , the profile consider updated . SUMMARY OF ACTIVITIES			
WORKING WEEK:			
Date	Work Summary/Weekly Activities	Duration	Remarks
21/8/2017 – 25/8/2017	I was assigned back to TNT Express Worldwide upon the Week 4 . When I were ask to stay in FeDex , the main reason is due to TNT's system is hacked by malware virus . Thus , the TNT's shipment is transferred to FeDex for certain period of time . Our job is TNT is start with declaration process . The declaration process is require to return the K2's form to customers . Due to systems broke down , I need to manually fill the form . The form for daily basis is about 100 – 200 customers . This activities had give me some knowledge which is every export and import activities need to return to customer for their record . Other than that , I also need to update every declaration in the systems in order for company and customer to easily tracked the operation . I also learned the process of custom clearance . Process of custom clearance is needed to make every shipment is delivered successfully . The custom clearance is the process to assigned the duty and tax for customers . Our job is to confirm with customer either they agree or not with the amount given . Another job accomplished is also I did call customer for their custom clearance confirmation . It's the process require customers to provide catalogues or any image for custom checking . Custom need to know at what categories the item or shipment in .
